

Nils Aldag fills the post as the new energy chair at Hydrogen Europe

Brussels, 24th November 2016.

[Nils Aldag, Co-Founder and CFO at Sunfire](#), has been elected as one of the three new Board Members by the Hydrogen Europe General Assembly. He now holds the Energy Chair.

The election is another important sign for Sunfire, as the Clean Tech company won the election by a great margin, leaving global players like Siemens and Air Liquide behind.

Hydrogen Europe is the leading European association working to make Fuel Cell and [Hydrogen](#) (FCH) technologies an everyday reality in Europe. With over 100 members, the Association represents companies of all sizes as well as national/regional Associations from across Europe in the field of FCH technologies. Hydrogen Europe partners with the European Commission and the research community in a public-private partnership, Fuel Cells and Hydrogen Joint Undertaking (FCH JU), worth €1.3 billion to accelerate the market introduction of these clean technologies in energy and transport. It also serves as the industry's reference point and key advocate towards European decision-makers.

About Sunfire

Sunfire is a global leader in the production of industrial electrolyzers based on pressurized alkaline and solid oxide (SOEC) technologies. With its electrolysis solutions, Sunfire is addressing a key challenge of today's energy system: Providing renewable hydrogen and syngas as climate-neutral substitutes for fossil energy. Sunfire's innovative and proven electrolysis technology enables the transformation of carbon-intensive industries that are currently dependent on fossil-based oil, gas, or coal. The company employs more than 650 people located in Germany and Switzerland.
